Item 2810-010

- made of metal, PTFE coated
- length 300 mm
- inner diameter 3 mm
- outer diameter 4 mm

Item 2810-200

Also available as a SET!
Item 2810-310

can be used with or without dosing needle

needle can be easily screwed on and off

Cleaning the gun and needle simply with our gun cleaner Item 1812-500.

The dosing needle is THE PROBLEM SOLVER!

From now on, places can be filled with PU foam that were previously inaccessible. With a length of 300 mm and a thickness of only 4 mm, you can reach the smallest grooves and the furthest corners. Even overhead work is no longer a problem.

If necessary, the needle can also be bent once and easily shortened with a metal saw.

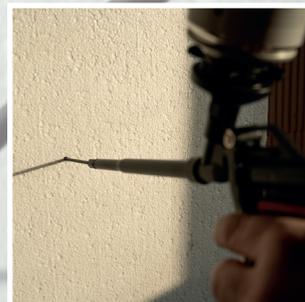

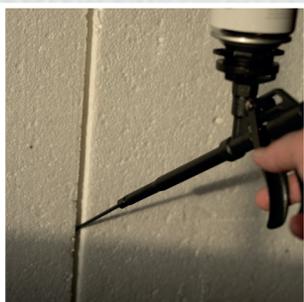

Fill gap completely

Spray out breakthroughs

Fix insulation boards
